

Grow your market quickly and easily with a fully managed cloud Private Branch Exchange (PBX) solution

Wholesale Hosted PBX from Bell

You need to deliver reliable, flexible communications solutions to your business customers. You also want to quickly and cost-effectively expand your portfolio so you can take advantage of new revenue opportunities. Wholesale Hosted PBX from Bell lets you do both – meeting customers' needs while strengthening your brand and growing your market.

Wholesale Hosted PBX is a robust, fully managed service delivered over our private cloud-based infrastructure, so there's no need to own a PBX system or dedicated data connection. Its combination of carrier-grade PBX service with unified communications and other advanced tools lets you offer a complete communications solution.

Benefits of Wholesale Hosted PBX

- **Simplify your operations:** Bell experts handle all upgrades and maintenance to the PBX system as part of this fully managed service, leaving you free to focus on your core business objectives.
- **Maximize your investment:** Wholesale Hosted PBX helps you achieve high revenue potential with fast service turn-up times and reduced operating costs.

- **Meet the needs of any customer:** Our flexible packages and feature options let you accommodate multiple types of business customers – from small businesses to multi-site enterprises.
- **Manage orders and customers on demand:** Our self-serve web portal makes it easy to map out end-user programming requirements, configure call management functions, order hardware, view invoice details and request support from our Session Initiative Protocol (SIP) experts.
- **Deliver added value to end users:** Enterprise-class features such as free on-network calls from any location and high-definition audio between IP phones help your customers save money and boost productivity.

Wholesale Hosted PBX packages

Choose from three flexible packages to meet the needs of your customers and their end users:

	Basic	Standard	Premium
	When feature-rich services are not required (e.g., lobby or warehouse).	For users whose day-to-day tasks rely heavily on communications.	For users on-the-go who need the full suite of features and applications – customizable on demand.
Three-way conference	✓	✓	✓
Auto call back			
Call park and retrieve			
Call return			
Call trace			
Call transfer			
Free on-net calls			
Calling plans			
Last number redial			
Music on hold
